### Freelance – Full-stack web solutions

Full-stack developer 2014 – Present

**Responsibility:** Solutions focused on sustainability and good UX for both the user and the owner. Using WordPress at first, later Next.js with a CMS solution.

**Achievements:** Launched 30+ projects, mainly for cultural organisations. Stayed in long-term cooperation with some of them. Moderated [WordCamp Prague](#) developer section.

### Tvar – Renowned literature magazine in Czech republic

Tech lead 2014 – 2017

**Responsibility:** To lead the magazine into a digital world in a stable and sustainable way. Pitching new online formats. Establishing online subscription.

**Achievements:** A robust website with new digital-friendly formats: Podcasts, online revue, culture service, networking. Digital archive with full-text. Online subscription almost doubled the income of the magazine.
