Relevant experience

Apitree – Customer portal for E.ON (energy supplier)

Front-end 2023 – Present

Responsibility: Build a robust front-end for customer portal for E.ON (German power supplier) in the team of 5 developers. Deliver solution that handles complex logic of an app for 1.5 million users.

Achievements: Developed a library of reusable components used across the app. Shipped bundle of complex mobile-first features (such as payments) with emphasis on UX and performance.

www.apitree.cz

Dotu – Planning apps for theatres

Front-end lead 2020 – 2023

Front-end 2019 – 2020

Responsibility: Deliver robust high-quality front-end focused on user experience, accessibility and extensivity. Build component architecture and create reusable design system.

Achievements: Dotu UI is implemented in 4 apps that continue to grow. The apps are used by major theatres in Czech republic.

www.dotu.cz

After Russia – Anti-war opposition in Russia

Tech lead 2022 – Present

Responsibility: Co-founded the project, build the web app. Setup publication workflow and automation solutions. Continue to steer the project.

Achievements: Stable team of 30+ volunteers across the world. Regular pipeline of content. Growing outreach to European audience: by publication or attendance to conferences.

www.after-russia.org

Freelance – Full-stack web solutions

Full-stack developer 2014 – Present

Responsibility: Solutions focused on sustainability and good UX for both the user and the owner. Using WordPress at first, later Next.js with a CMS solution.

Achievements: Launched 30+ projects, mainly for cultural organisations. Stayed in long-term cooperation with some of them. Moderated [WordCamp Prague](#) developer section.

Tvar – Renowned literature magazine in Czech republic

Tech lead 2014 – 2017

Responsibility: To lead the magazine into a digital world in a stable and sustainable way. Pitching new online formats. Establishing online subscription.

Achievements: A robust website with new digital-friendly formats: Podcasts, online revue, culture service, networking. Digital archive with full-text. Online subscription almost doubled the income of the magazine.
