## Relevant experience

Dotu – Planning apps for theatres

Front-end 2019 – 2020  
Front-end lead 2020 – Present

**Responsibility:** Deliver robust high-quality front-end focused on user experience, accessibility and extensivity. Build component architecture and created reusable design system.

**Achievements:** Dotu UI is implemented in 4 apps that continue to grow. The apps are used by major theatres in Czech republic.

Freelance – Full-stack web solutions

Full-stack developer 2014 – Present

**Responsibility:** Solutions focused on sustainability and good UX for both the user and the owner. Using WordPress at first, later Next.js with a CMS solution.

**Achievements:** Launched 30+ projects, mainly for cultural organisations. Stayed in long-term cooperation with some of them. Moderated [WordCamp Prague](#) developer section.

Tvar – Renowned literature magazine in Czech republic

Tech lead 2014 – 2017

**Responsibility:** To lead the magazine into a digital world while making it a stable and sustainable process. Pitching new formats ideal for the online world. Establishing online subscription.

**Achievements:** Launched a robust website with new digital-friendly formats: Podcasts, online revue, public polls, culture coverage, networking. Digital archive of past issues with full-text search. Online subscription almost doubled the income of the magazine.
